- In the statement made by Ravina Shamdasani, Spokesperson of the UN High Commissioner for Human Rights on April 22, 2022, it is stated that Israeli security forces injure around 180 Palestinians, including at least 27 children during tensions in the Al Aqsa Mosque compound. The witnessed conduct of Israeli security forces in particular on 15 April, captured in numerous videos, raises serious concerns that the use of force was widespread, unnecessary and indiscriminate. The UN Secretary-General's call for calm was reiterated and urged investigations where people have been killed or injured.
